

UI/UX

R.PRIYANKA (231701041)

Aim: Design a user-friendly hobbies app UI that aids users in discovering, tracking, and engaging with hobbies.

Procedure: 1. Research: Identify user needs and analyze competitors.

2. Wireframe: Create basic layouts and user flows.

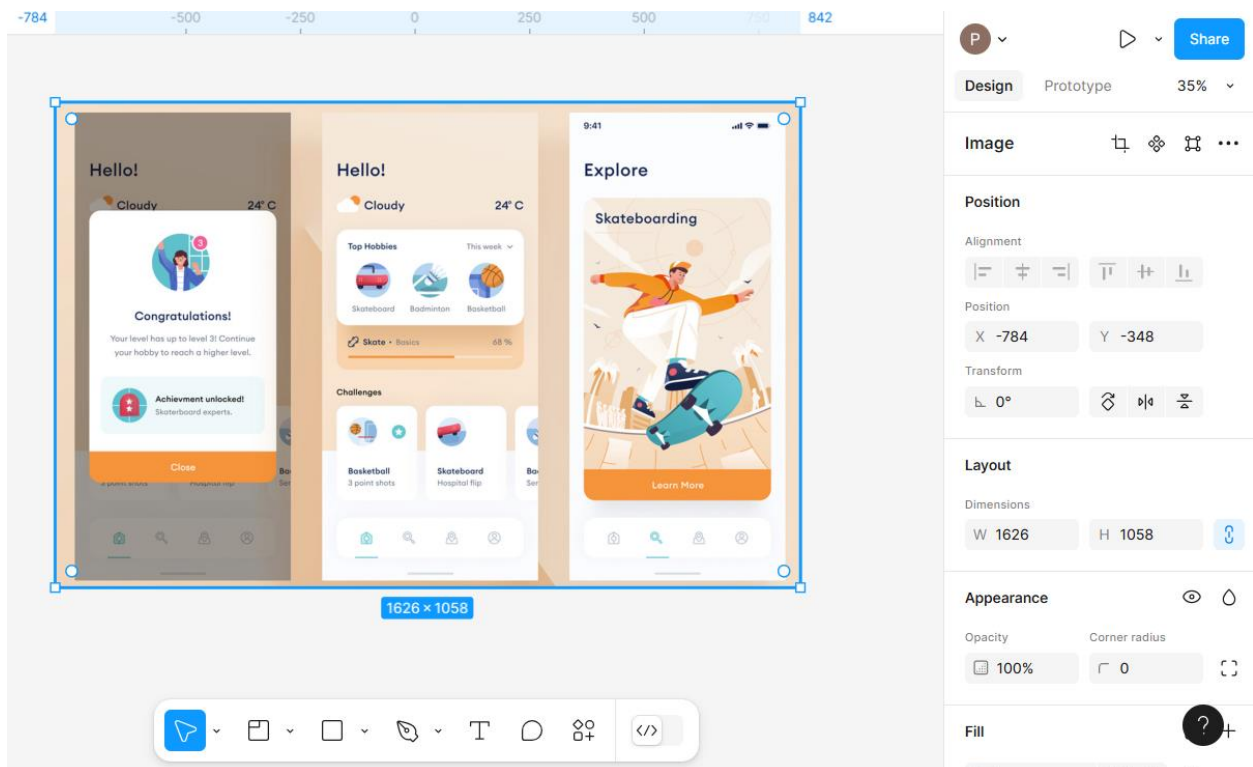

3. 3. Design in Figma:

- o Set up artboards for different devices.

- o Design screens: Home, Discovery, Details, Tracking, and Social.
- o Develop style guide: Colors, typography, and components.

- o Prototype with interactive links.

4. Feedback: Share for input, refine based on feedback.

Result: Deliver high-fidelity mockups, an interactive prototype, and a style guide, ready for development.
